My Dear Dr. Edmond
~~Dear Sir~~

for P. Yung today. I write
with reference to the report for
removal of the girls school.

Your letter to the Mission on
that point has filled us
with anxiety lest a failure
to present clearly to you the
great importance and advantage
of this more should cause its
failure. I think I wrote pretty
clearly before and would ask that
my letter again be read. I wish
to make one more point. You refer
to the objection to building a

Useful for a ^{missionary} ⁱⁿ
connection with the Girls' school
as the ^{our} ^{idea} ^{was} ^{to} ^{place}
such a man there as a new
necessary connection of the school
On the contrary, our idea has
been that planting the Girls'
School for one on the other
side of the city would be
almost equivalent to estab-
lishing a new station and
that we could not put a
minister in a better place
for effective and necessary work
than to place him there.
Now I trust you could realize
the advantage to be gained by
such a move. In this foreign
settlement a man ^{time} ^{is} ^{entirely}

by all sorts of social duties
Committee meetings & and he
does not gain that sympathy with
you, Crepus & team. Life which
is such an element in one's success
Bethel far here but two min-
utes and a doctor here with
the Boys' school and let the
rest get out of this neigh-
borhood even tho' it involves
considerable expense.
With Dr. Underwood here - engaged
in literary work and sympathetic work
with Chapel in connection with
dispensaries through the city the
section of the city and a church
here will be provided for.
Mr. Miller as Treasurer and Superintendent
of Boys' school can just
as well be here. Beyond that

this long settlement - when
by putting Mr Moore in Kou Pong
and so we have done and
Mr Gifford on the other side of
the City with Girls' School (as
I hope we shall do) we shall
be able to meet these sections
of the City - entirely different people
for more efficiency.
Will this entail some outlay
and an obscure loss in property
already on hand? What if it
does - if the whole object of
our coming to Kou is thereby
the better attained, viz. to get
into the life of Kou and plant
the gospel in their hearts to their
regeneration.
If they before us has been

Consideration - having been
talked of for three years - a
discussion culminating in
a fixed conclusion that it is
by far the best thing ever to
make. Grant us this and
I feel sure the outcome will
be satisfactory. If we fail to
get this and we will feel
sure feel that we have done
what we could to get into the
most efficient condition for good
work but that we have been
hindered - hindered because
of failure on part of Board
to realize the situation. If
we cannot get this otherwise
cannot one of the secretaries or
members of the Board - say we

situation for ourselves
We want the ladies in the
school to have more direct
access to the women of Korea
and we want a minister with
them to build up a church as
the result of their labors among the
women. He to look especially
after work among the men of
the families reached by the women.
With kind regards and prayers
for blessings upon your work
and ours.

Yours sincerely,
W. H. Moffatt
